**PROXY STATEMENT FOR
2018 ANNUAL GENERAL MEETING OF SHAREHOLDERS
TO BE HELD ON MAY 14, 2018**

GENERAL INFORMATION

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors (the “**Board**”) of Amarin Corporation plc, a public limited company registered in England & Wales (“**Amarin**”, the “**Company**”, “**we**” or “**us**”) for use at the Company’s 2018 Annual General Meeting of Shareholders (the “**Annual General Meeting**”) to be held at The Shelbourne Hotel, 27 St. Stephen’s Green, Dublin 2, Ireland, on May 14, 2018, at 2:00 p.m. local time for the purpose of considering and, if thought fit, passing the resolutions specified in the Notice of Annual General Meeting. This Proxy Statement is being mailed to shareholders on or about April 20, 2018.

For a proxy to be effective, it must be properly executed and dated and lodged (together with a duly signed and dated power of attorney or other authority (if any) under which it is executed (or a notarially certified copy of such power of attorney or other authority)) at the offices of the Company’s registrars, Equiniti Limited of Aspect House, Spencer Road, Lancing, West Sussex, BN99 6DA, England (the “**Registrars**”) so as to be received by 8:00 a.m. local time on May 10, 2018. Each proxy properly tendered will, unless otherwise directed by the shareholder, be voted FOR the nominees described in this Proxy Statement and FOR each other proposal described in the Proxy Statement, and at the discretion of the proxy holder(s) with regard to all other matters that may properly come before the meeting.

The Company will pay all of the costs of soliciting proxies. We will provide copies of our proxy materials to Citibank, N.A. as the depository for our American Depositary Shares (the “**Depository**”), brokerage firms, fiduciaries and custodians for forwarding to beneficial owners and will reimburse these persons for their costs of forwarding these materials. We have engaged Okapi Partners to assist us in the distribution and solicitation of proxies for a fee of \$15,000 plus expenses. Our directors, officers and employees may also solicit proxies; however, we will not pay them additional compensation for any of these services. Proxies may be solicited by telephone, facsimile, or personal solicitation.

Shares Outstanding and Voting Rights

Amarin is registered in England & Wales and therefore subject to the United Kingdom Companies Act 2006 (the “**Companies Act**”), which, together with the Articles of Association of the Company (the “**Articles**”), governs the processes for shareholder voting at Annual General Meetings. There are a number of differences between English and U.S. law in relation to voting. At the Annual General Meeting, a resolution put to the vote of the meeting shall be decided on a show of hands unless a poll is demanded (either before a show of hands on that resolution or immediately after the result of a show of hands on that resolution is declared) by (a) the chairman, (b) at least two shareholders entitled to vote at the meeting, (c) a shareholder or shareholders representing not less than one-tenth of the total voting rights of all shareholders having the right to vote at the meeting (excluding any voting rights attached to shares that are held as treasury shares) or (d) a shareholder or shareholders holding shares conferring a right to vote at the meeting being shares on which an aggregate sum has been paid up equal to not less than one-tenth of the total sum paid up on all shares conferring that right (excluding any shares in the Company conferring a right to vote at the meeting that are held as treasury shares).

Only holders of record of our ordinary shares with a par value of £0.50 each (“**Ordinary Shares**”) at the close of business on April 18, 2018 (the “**Record Date**”), are entitled to notice of, and to attend and to vote at, the Annual General Meeting. On the Record Date, approximately 295,956,415 Ordinary Shares were issued and 293,584,140 were outstanding, of which approximately 293,217,685 were held in the name of the Depository, which issues Company-sponsored American Depositary Receipts (“**ADRs**”) evidencing American Depositary Shares (“**ADSs**”) which, in turn, each represent one Ordinary Share. With respect to all matters to be voted on at

[Table of Contents](#)

the Annual General Meeting, each shareholder present has only one vote unless demand is made for a vote on a poll (in which case each shareholder gets one vote per Ordinary Share held). The presence, in person or by proxy, of at least two shareholders who hold shares as of the Record Date will constitute a quorum for the transaction of business at the Annual General Meeting. At any adjournment of the Annual General Meeting, if a quorum is not present within fifteen minutes from the time appointed for such meeting, one person entitled to be counted in a quorum present at the adjournment shall be a quorum.

Persons who hold Ordinary Shares directly on the Record Date (“**record holders**”) must return a proxy card or attend the Annual General Meeting in person in order to vote on the proposals. Persons who own Ordinary Shares indirectly on the Record Date through a brokerage firm, bank or other financial institution, including persons who own Ordinary Shares in the form of ADSs through the Depositary (“**beneficial owners**”) must return a voting instruction form to have their shares or the shares underlying their ADSs, as the case may be, voted on their behalf. Brokerage firms, banks or other financial institutions that do not receive voting instructions from beneficial owners may either return a proxy leaving these shares un-voted (a “**broker non-vote**”) or vote these shares on behalf of the beneficial owners. Your brokerage firm, bank or other financial institution may vote your shares on routine matters and cannot vote your shares on any non-routine matter. The appointment of our independent registered public accounting firm (Proposal 4) is a routine matter. We encourage you to provide voting instructions to your brokerage firm, bank or other financial institution by giving your proxy to them. This ensures that your shares will be voted at the Annual Meeting according to your instructions. You should receive directions from your brokerage firm, bank or other financial institution about how to submit your proxy to them at the time you receive this proxy statement.

ADR holders are not entitled to vote directly at the Annual General Meeting, but an Amended and Restated Deposit Agreement dated as of November 4, 2011 (the “**Deposit Agreement**”), exists between the Depositary and the holders of ADRs pursuant to which registered holders of ADRs as of the Record Date are entitled to instruct the Depositary as to the exercise of voting rights pertaining to the Ordinary Shares so represented. The Depositary has agreed that it will endeavor, insofar as practicable, to vote (in person or by delivery to the Company of a proxy) the Ordinary Shares registered in the name of the Depositary, in accordance with the instructions of the ADR holders. In the event that the instruction card is executed but does not specify the manner in which the Ordinary Shares represented are to be voted (i.e., by marking a vote “FOR”, “AGAINST” or any other option), the Depositary will vote in respect of each proposal as recommended by the Board which is described in the Notice of Annual General Meeting. Instructions from the ADR holders must be sent to the Depositary so that the instructions are received by no later than 3:00 p.m. New York time on May 7, 2018 (the “**Instruction Date**”).

The Company has retained the Registrars to hold and maintain its register of members. The Registrars will be engaged by the Company to send proxy forms to all registered members appearing on that register and to take delivery of completed proxy forms posted to it in accordance with the details above.

Abstentions and broker non-votes will be counted for the purpose of determining the presence or absence of a quorum, but will not be counted for the purpose of determining the number of votes cast on a given proposal. The required vote for each of the proposals expected to be acted upon at the Annual General Meeting is described below:

Ordinary Resolutions

Proposals No. 1 and No. 2—Election of directors. Each director nominated for election is elected if (i) on a show of hands, a majority of shareholders present in person or by proxy and voting on the proposal vote in favor of such director or (ii) on a poll, a majority of the shares present at the meeting in person or by proxy and voting on the proposal are voted in favor of such director. As a result, abstentions and broker non-votes will have no effect on the vote outcome.

[Table of Contents](#)

Proposal No. 3—Advisory (non-binding) vote to approve the compensation of the Company’s named executive officers. This advisory proposal will be approved if (i) on a show of hands, a majority of shareholders present in person or by proxy and voting on the proposal vote in favor of the resolution or (ii) on a poll, a majority of the shares present at the meeting in person or by proxy and voting on the proposal are voted in favor of the resolution. As a result, abstentions and broker non-votes will have no effect on the vote outcome.

Proposal No. 4—Approval of independent registered public accounting firm. This proposal will be approved if (i) on a show of hands, a majority of shareholders present in person or by proxy and voting on the proposal vote in favor of the resolution or (ii) on a poll, a majority of the shares present at the meeting in person or by proxy and voting on the proposal are voted in favor of the resolution. As a result, abstentions and broker non-votes will have no effect on the vote outcome.

We encourage you to vote by proxy by mailing an executed proxy card. By voting in advance of the meeting, this ensures that your shares will be voted and reduces the likelihood that the Company will be forced to incur additional expenses soliciting proxies for the Annual General Meeting. Any record holder of our Ordinary Shares may attend the Annual General Meeting in person and may revoke the enclosed form of proxy at any time by:

- executing and delivering to the corporate secretary a later-dated proxy; or
- voting in person at the Annual General Meeting.

Beneficial owners of our Ordinary Shares and ADSs representing our Ordinary Shares who wish to change or revoke their voting instructions should contact their brokerage firm, bank or other financial institution or the Depositary, as applicable, for information on how to do so. Generally, however, beneficial owners of our Ordinary Shares and ADSs representing our Ordinary Shares who wish to change or revoke their voting instructions may do so up until 3:00 p.m. New York time on the Instruction Date. Beneficial owners who wish to attend the Annual General Meeting and vote in person should contact their brokerage firm, bank or other financial institution holding Ordinary Shares of Amarin on their behalf in order to obtain a “legal proxy” which will allow them to both attend the meeting and vote in person. Without a legal proxy, beneficial owners cannot vote at the Annual General Meeting because their brokerage firm, bank or other financial institution may have already voted or returned a broker non-vote on their behalf. Record holders of ADRs who wish to attend the Annual General Meeting and vote in person should contact the Depositary (and beneficial owners wishing to do the same should contact their brokerage firm, bank or other financial institution holding their ADSs) to cause their ADSs to be cancelled and the underlying shares to be withdrawn in accordance with the terms and conditions of the Deposit Agreement so as to be recognized by us as a record holder of our Ordinary Shares.

PROPOSALS NOS. 1 AND 2
ELECTION OF DIRECTORS

The Articles provide that, at every annual general meeting, at least one-third of the directors at the time shall retire from office (or, if the number of directors at the time is not a multiple of three, then the number nearest to but not exceeding one-third shall retire from office). The directors elected at the Annual General Meeting will hold office until their successors are elected and qualified, unless they resign or their seats become vacant due to death, removal, or other cause in accordance with the Articles.

As described below, the Board has nominated Mr. Thero and Mr. O’Sullivan for re-election at the Annual General Meeting. Each of the nominees has indicated his or her willingness to serve if re-elected. Should any of the nominees become unavailable for election at the Annual General Meeting, the persons named on the enclosed proxy as proxy holders may vote all proxies given in response to this solicitation for the election of a substitute nominee chosen by the Board.

Nomination of Directors

The Nominating and Corporate Governance Committee, which acts as the Company’s nominating committee, reviews and recommends to the Board potential nominees for election to the Board. In reviewing potential nominees, the Nominating and Corporate Governance Committee considers the qualifications of each potential nominee in light of the Board’s existing and desired mix of experience and expertise. Specifically, as set forth in our Nominating and Corporate Governance Committee Charter, it considers whether the nominee satisfies the following minimum criteria: has experience at a strategic or policymaking level in a business, government, non-profit or academic organization of high standing; is highly accomplished in his or her field, with superior credentials and recognition; is well regarded in the community and has a long-term reputation for the highest ethical and moral standards; has sufficient time and availability to devote to the affairs of the Company, particularly in light of the number of boards on which the nominee may serve; has a demonstrated history of actively contributing at board meetings (to the extent that the nominee serves or has previously served on other boards). In addition to these minimum qualifications, the Nominating and Corporate Governance Committee recommends that the Board select persons for nomination to help ensure that: a majority of the Board shall be independent in accordance with in the listing standards of the NASDAQ Global Select Market (“*NASDAQ*”); each of the Company’s Audit, Remuneration and Nominating and Corporate Governance Committees shall be comprised entirely of independent directors; and at least one member of the Audit Committee shall qualify as an audit committee financial expert as defined by Securities and Exchange Commission (“*SEC*”) rules. In addition, the Nominating and Corporate Governance Committee may consider whether the nominee has direct experience in the pharmaceutical, biotechnology or healthcare industries or in the markets in which the Company operates and whether the nominee, if elected, would assist in achieving a mix of Board members that represents a diversity of background and experience. Although the Nominating and Corporate Governance Committee may consider whether nominees assist in achieving a mix of Board members that represents a diversity of background and experience, which is not only limited to race, gender or national origin, we have no formal policy regarding board diversity.

After reviewing the qualifications of potential Board candidates, the Nominating and Corporate Governance Committee presents its recommendations to the Board, which selects the final director nominees. Upon the recommendation of the Nominating and Corporate Governance Committee, the Board nominated Mr. Thero and Mr. O’Sullivan for re-election as directors.

The Nominating and Corporate Governance Committee considers shareholder nominees using the same criteria set forth above. Shareholders who wish to present a potential nominee to the Nominating and Corporate Governance Committee for consideration for election at a future annual general meeting of shareholders must provide the Nominating and Corporate Governance Committee with notice of the nomination and certain information regarding the candidate within the time periods set forth below under the caption “Shareholder Proposals.”

PROPOSAL NO. 3
ADVISORY VOTE ON EXECUTIVE COMPENSATION

Background

As recommended by our shareholders at our 2017 annual general meeting and subsequently approved by our Board, we give our shareholders the opportunity to cast an advisory (non-binding) vote to approve the compensation of the Company's "named executive officers," each year (a so-called "say-on-pay" vote). At the 2017 annual general meeting, the Company's shareholders supported the say-on-pay vote with 83.4% of the votes cast in favor of the proposal.

The say-on-pay vote is a non-binding vote to approve the compensation of the Company's "named executive officers," as described in this Proxy Statement under the "Executive Compensation Discussion and Analysis" section, the tabular disclosure regarding such compensation, and the accompanying narrative disclosure on pages 21 to 38 of this Proxy Statement. Our philosophy in setting compensation policies for executive officers has two fundamental objectives: (1) to attract and retain a highly skilled team of executives and (2) to align our executives' interests with those of our shareholders by rewarding short-term and long-term performance and tying compensation to increases in shareholder value. The Remuneration Committee believes that executive compensation should be directly linked both to continuous improvements in corporate performance (so-called "pay for performance") and accomplishments that are expected to increase shareholder value. The "Executive Compensation Discussion and Analysis" section herein provides a more detailed discussion of the executive compensation program and compensation philosophy.

The vote under this Proposal No. 3 is advisory, and therefore not binding on the Company, the Board or our Remuneration Committee. However, our Board, including our Remuneration Committee, values the opinions of our shareholders and, considers changes to our executive compensation program as appropriate in response to input from shareholders and evolving factors such as the business environment and competition for talent.

Shareholders will be asked at the Annual General Meeting to approve the following resolution pursuant to this Proposal No. 3:

"RESOLVED, that the shareholders of the Company approve, on a non-binding, advisory basis, the compensation of the Company's 'named executive officers,' as disclosed in this Proxy Statement under the "Executive Compensation Discussion and Analysis" section, the compensation tables and the narrative disclosures that accompany the compensation tables."

Vote Required

This advisory proposal will be approved if (i) on a show of hands, a majority of shareholders present in person or by proxy and voting on the proposal vote in favor of the resolution or (ii) on a poll, a majority of the shares present at the meeting in person or by proxy and voting on the proposal are voted in favor of the resolution. As a result, abstentions and broker non-votes will have no effect on the vote outcome.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" PROPOSAL NO. 3.

PROPOSAL NO. 4**APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

Our Audit Committee has selected Ernst & Young LLP (“E&Y”) as our independent registered public accounting firm for the fiscal year ending December 31, 2018, and has further directed that we submit the selection of E&Y for approval by our shareholders at the Annual General Meeting.

The Audit Committee reviews and pre-approves all audit and non-audit services performed by its independent registered public accounting firm, as well as the fees charged for such services. All fees incurred in fiscal 2017 for services rendered by E&Y were approved in accordance with these policies. In its review of non-audit service fees, the Audit Committee considers, among other things, the possible impact of the performance of such services on the auditor’s independence. The Audit Committee has determined that the non-audit services performed by E&Y in the fiscal year ended December 31, 2017 were compatible with maintaining the auditor’s independence. Additional information concerning the Audit Committee and its activities can be found in the following sections of this Proxy Statement: “Board Committees” and “Report of the Audit Committee.”

E&Y commenced auditing our annual financial statements with the fiscal year ended December 31, 2014. Representatives of E&Y are expected to be available telephonically at the Annual General Meeting, will have the opportunity to make a statement if they desire to do so and will be available to respond to appropriate shareholder questions.

Shareholders will be asked at the Annual General Meeting to approve the following resolution pursuant to this Proposal No. 4:

[Table of Contents](#)

In the event that shareholders do not approve the foregoing resolution, we will need to engage a third-party auditor who will act as our independent registered public accounting firm under U.S. law and as our statutory auditor under UK law for the fiscal year ending December 31, 2018. We may proceed to engage such firm as our Board and Audit Committee deem advisable, which firm may include E&Y.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE “FOR” PROPOSAL NO. 4

ADDITIONAL BUSINESS

As a public limited company organized under the laws of England and Wales, it is a statutory requirement that the Board lay before the Annual General Meeting the Company's statutory accounts, which are the Company's Annual Report for the year ended December 31, 2017, as prepared in conformity with GAAP (the "**Annual Report**") and the accounts for the financial year ended December 31, 2017, prepared in accordance with International Financial Reporting Standards (the "**Statutory Accounts**"). As required by the Companies Act and the Articles, the Statutory Accounts will be made available for download in "PDF" format on the Company's website (<http://investor.amarincorp.com>) as soon as they are complete, but no later than April 20, 2018, which is at least twenty-one clear days in advance of the Annual General Meeting. In addition, hard copies of the Statutory Accounts may be obtained, once they are complete, by contacting the Company's investor relations department at Amarin Corporation plc, c/o Amarin Pharma, Inc., 1430 Route 206, Bedminster, NJ 07921 or by telephone at (908) 719-1315. If any other matter is properly brought before the Annual General Meeting or any adjournment thereof, it is the intention of the persons named in the enclosed proxy to vote the shares they represent in accordance with their judgment. In order for any shareholder to nominate a candidate at a given annual general meeting, he or she must provide timely written notice to our corporate secretary pursuant to the terms of our Articles, as described below.

CORPORATE GOVERNANCE

Director Independence

We believe that the Company benefits from having a strong and independent Board. For a director to be considered independent, the Board must determine that the director does not have any direct or indirect material relationship with the Company that would affect his or her exercise of independent judgment. On an annual basis, the Board reviews the independence of all directors under guidelines established by NASDAQ and in light of each director's affiliations with the Company and members of management, as well as significant holdings of Company securities. This review considers all known relevant facts and circumstances in making an independence determination. Based on this review, the Board has made an affirmative determination that all directors, other than Mr. Thero, are independent. It was determined that Mr. Thero lacks independence because of his status as the Company's President and Chief Executive Officer.

Code of Business Conduct and Ethics

We believe that our Board and its committees, led by a group of strong and independent directors, provide the necessary leadership, wisdom and experience that the Company needs in making sound business decisions. Our Code of Business Conduct and Ethics helps clarify the operating standards and ethics that we expect of all of our officers, directors and employees in making and implementing those decisions. Waivers of our Code of Business Conduct and Ethics for the benefit of a director or an executive officer may only be granted by the Board or, if permitted, a committee of the Board, and will be publicly announced promptly in our SEC filings. Waivers of our Code of Business Conduct and Ethics for the benefit of other employees may be made by our Compliance Officer, the Board or, if permitted, a committee of the Board. In furthering our commitment to these principles, we invite you to review our Code of Business Conduct and Ethics and other corporate governance materials located on our website at www.amarincorp.com.

Shareholder Communications

Generally, shareholders who have questions or concerns regarding the Company should contact our Investor Relations department at (908) 719-1315. However, any shareholders who wish to address questions regarding the business or affairs of the Company directly with the Board, or any individual director, should direct his or her questions in writing to the Lead Independent Director of the Board, Amarin Corporation plc, 2 Pembroke House, Upper Pembroke Street 28-32, Dublin 2 Ireland or c/o Amarin Pharma, Inc., 1430 Route 206, Bedminster, NJ 07921. Upon receipt of any such communications, the correspondence will be directed to the appropriate person, including individual directors.

BOARD OF DIRECTORS AND COMMITTEES

During our 2017 fiscal year, our Board met in person four times. Each director attended at least 75% of the aggregate of the meetings of the Board and meetings of the committees of which he or she was a member in our last fiscal year. During fiscal year 2017, our Board had an Audit Committee, a Remuneration Committee and a Nominating and Corporate Governance Committee. All members of the Audit, Remuneration and Nominating and Corporate Governance Committees are non-employee directors who are deemed independent.

All members of our Board who were directors at the time attended the 2017 Annual General Meeting of Shareholders, either in person or via telephone. Although the Company has no formal policies regarding director attendance at annual general meetings, it encourages directors to attend annual general meetings and expects that all members of the Board will attend the 2018 Annual General Meeting.

Board Leadership Structure and Risk Oversight

Dr. Lars Ekman is our Chairman of the Board. Dr. Ekman is independent and all key committees of the Board are comprised solely of, and chaired by, independent directors. The Board believes that this structure, combined with the Company's established corporate governance guidelines, provides an effective leadership structure for the Company. In addition, to ensure effective independent oversight of the Company, the Board holds meetings of the independent directors of the Board at every meeting.

The Board has overall responsibility for the oversight of the Company's risk management process, which is designed to support the achievement of organizational objectives, including strategic objectives, to improve long-term organizational performance and enhance shareholder value. Risk management includes not only understanding company-specific risks and the steps management implements to manage those risks, but also what level of risk is acceptable and appropriate for the Company. Management is responsible for establishing our business strategy, identifying and assessing the related risks and implementing appropriate risk management practices. The Board periodically reviews our business strategy and management's assessment of the related risk, and discusses with management the appropriate level of risk for the Company. The Board also delegates oversight to Board committees to oversee selected elements of risk as set forth below.

As part of the Board's risk oversight role, our Remuneration Committee reviews and evaluates the risks associated with our compensation programs. Our Remuneration Committee has reviewed our compensation policies as generally applicable to our employees and believes that our policies do not encourage excessive and unnecessary risk-taking, and that the level of risk that they do encourage is not reasonably likely to have a material adverse effect on Amarin. In making this determination, our Remuneration Committee considered the following:

- the Company's use of different types of compensation vehicles to provide a balance of long and short-term incentives with fixed and variable components;
- the granting of equity based awards with time-based vesting and performance-based vesting, both of which encourage participants to look to long-term appreciation in equity values;
- the Company's annual bonus determinations for each employee being tied to achievement of company goals, which goals promote long-term value; and
- the Company's system of internal control over financial reporting and code of conduct and ethics, which among other things, reduce the likelihood of manipulation of the Company's financial performance to enhance payments under any of its incentive plans.

The Audit Committee oversees the accounting and financial reporting processes of the Company and the audits of the Company's financial statements. The Audit Committee charter is available on our website at www.amarincorp.com. The Audit Committee met by teleconference six times during our 2017 fiscal year. The Nominating and Corporate Governance Committee is responsible for identifying individuals qualified to become members of the Board, consistent with criteria approved by the Board. The Nominating and Corporate Governance Committee also develops and implements policies and processes regarding corporate governance matters, assesses Board membership needs and acts as the Company's nominating committee by reviewing potential director nominees and recommending nominees to the Board. The Nominating and Corporate Governance Committee charter is available on our website at www.amarincorp.com. The Nominating and Corporate Governance Committee met in person two times and by teleconference one time during our 2017 fiscal year. All members of the Nominating and Corporate Governance Committee satisfy the current NASDAQ independence standards.

Remuneration Committee. The Remuneration Committee is currently comprised of Mr. Stack (Chairman), Ms. Peterson and Mr. van Heek. The Remuneration Committee, together with the Board, determines the framework for the compensation of the Company's Chief Executive Officer and such other members of executive management as it is designated to consider. The Remuneration Committee also determines the corporate and individual performance goals under the Company's management incentive plan and achievement of these goals, as well as determines the policy for and scope of pension arrangements, service agreements for the executive management team and termination payments. Further, the Remuneration Committee oversees any major changes in employee benefit structures throughout the Company, reviews and authorizes the reimbursement of any claims for expenses from the Chief Executive Officer and chairman in excess of £10,000 and performs other duties, as set forth in the Remuneration Committee charter. Additionally, the Remuneration Committee reviews and evaluates the risks associated with our compensation programs. The Remuneration Committee may delegate its authority to a subcommittee composed of one or more of its members. The Remuneration Committee charter is available on our website at www.amarincorp.com. The Remuneration Committee met in person three times and by teleconference three times during our 2017 fiscal year. All members of the Remuneration Committee satisfy the current NASDAQ and SEC independence standards and qualify as "outside directors" pursuant to the Code.

During the last completed fiscal year, no member of the Remuneration Committee was an officer or employee of Amarin and no member of the Remuneration committee has ever served as an officer of Amarin. EXECUTIVE COMPENSATION DISCUSSION AND ANALYSIS

The following compensation discussion and analysis (“*CD&A*”) describes the philosophy, objectives and structure of our fiscal year 2017 executive compensation program. This section is intended to be read in conjunction with the tables that immediately follow, which provide further historical compensation information for our named executive officers (“*NEOs*”), who for the fiscal year ended December 31, 2017, were:

John F. Thero	President and Chief Executive Officer
Joseph T. Kennedy	Executive Vice President, General Counsel and Strategic Initiatives, Secretary
Michael W. Kalb	Senior Vice President and Chief Financial Officer, Assistant Secretary
Steven B. Ketchum, Ph.D.	President of Research and Development, Senior Vice President and Chief Scientific Officer
Mark W. Salyer	Senior Vice President and Chief Commercial Officer

2017 Operating Highlights

We are very proud of the strong operating, financial and stock price performance of Amarin in 2017. As discussed more fully below, achievement of these objectives were considered by our Remuneration Committee in determining executive compensation for 2017. Key operating highlights from the past year include the following:

- Revenue Growth and Gross Margin Improvement:** The Company recognized total revenue of \$181.1 million for 2017, comprised of \$179.8 million in net product revenue from U.S. sales of Vascepa® (icosapent ethyl) and \$1.3 million in licensing revenue related to collaborations for the commercialization of Vascepa outside the United States. The net product revenue for 2017 represented an increase of \$50.9 million over 2016. Gross margin on product revenues was 75% in 2017, versus 73% in 2016, driven by improvements in product-related costs.

Quarterly Vascepa Sales (in millions)

- Prescription Growth:** The Company increased normalized prescriptions for Vascepa by 45% and 42% in 2017 compared to 2016 based on data from Symphony Health and IQVIA, respectively. In doing so, the Company increased its market share of prescription omega-3 products to >30% in the United States.

Table of Contents

- **REDUCE-IT on Track:** The Company's long-term cardiovascular outcomes study, REDUCE-IT, advanced closer to completion with clinical sites in the study instructed to begin having all living patients in the study visit their clinical site for final data collection. Top-line results from this first in class study are anticipated to be reported by the end of the third quarter of 2018. In parallel with advancing the REDUCE-IT study, the Company in 2017 also supported 25 scientific publications and abstract presentations.
- **International Expansion:** The Company added a commercial partner to seek regulatory approval of, and commercialize Vascepa in, Canada. The Company supported its commercial partner in the Middle East with multiple country filings seeking approval to commence marketing of Vascepa in those countries. And, the Company supported its partner in China in commencing a clinical trial for Vascepa in China as part of a clinical and regulatory strategy to get Vascepa approved and commercialized in China.
- **Improved Net Cash Flow:** The Company achieved its publicly stated objective of being net cash flow positive in 2017 after excluding the benefit, on a non-GAAP basis, of net proceeds from the Company's Q1 2017 exchangeable debt transactions, which transactions moved the earliest scheduled put date for the Company's remaining \$30.0 million in outstanding exchangeable debt to 2022, and excluding greater than \$40 million of payments for R&D (primarily REDUCE-IT related) and approximately \$17 million of payments for financing-type costs (e.g., interest and royalties). This improvement in net cash flow reflected increased sales productivity, negotiated cost savings and overall spending prioritization and control.
- **Superior Stock Price Performance.** As depicted in the graph below, over the three-year time period through December 31, 2017, cumulative total return for Amarin's ADSs exceeded both the NASDAQ Composite Index and NASDAQ Biotechnology Index. In particular, the total return for Amarin's ADSs well exceeded the cumulative returns for the NASDAQ Composite Index and NASDAQ Biotechnology Index in each of the past two calendar years.

Compensation Philosophy and Objectives

Pay for Performance

Our philosophy in setting compensation policies for executive officers has two fundamental objectives: (1) to attract and retain a highly skilled team of executives and (2) to align our executives' interests with those of our shareholders by rewarding short-term and long-term performance and tying compensation to increases in shareholder value. The Remuneration Committee believes that executive compensation should be directly linked both to continuous improvements in corporate performance ("*pay for performance*") and accomplishments that

are expected to increase shareholder value. In furtherance of this goal, the Remuneration Committee has adhered to the following guidelines as a foundation for decisions that affect the levels of compensation:

- provide a competitive total compensation package that enables the Company to attract and retain highly qualified executives with the skills and experience required for the achievement of business goals;
- align compensation elements with the Company's annual goals and long-term business strategies and objectives;
- promote the achievement of key strategic and financial performance measures by linking short-term and long-term cash and equity incentives to the achievement of measurable corporate and individual performance goals; and
- align executives' incentives with the creation of shareholder value.

The Remuneration Committee has historically compensated executive officers with three primary compensation components: base salary, annual and short-term incentive bonuses, and long-term equity-based compensation. The Remuneration Committee believes that cash compensation in the form of base salary and incentive bonuses provides our executives with short-term rewards for success in operations, and that long-term compensation through the grant of equity awards aligns the objectives of management with those of our shareholders with respect to long-term performance and success.

CEO Performance and Compensation

Our Remuneration Committee believes that it is especially important to set compensation for our Chief Executive Officer in a manner that address the two fundamental objectives described above.

John F. Thero has served as our President and Chief Executive Officer since January 2014. Before that, he served as our President and Chief Financial Officer since November 2010 and before that as our Chief Financial Officer since November 2009. Mr. Thero has over 25 years of executive level experience and, in the view of the Remuneration Committee, a strong record of accomplishment before and during his tenure at the Company.

Mr. Thero became Chief Executive Officer in 2014 to stabilize and grow the Company following significant corporate setbacks emanating from a change in position by the FDA regarding requirements for approval of the ANCHOR indication as became evident in an FDA advisory committee meeting in late 2013, which meeting concluded with a vote against a significant proposed label expansion for Vascepa followed by the FDA rescinding the related ANCHOR study special protocol assessment agreement. Since becoming President and Chief Executive Officer, Mr. Thero has played a critical role in selecting, retaining and motivating experienced personnel throughout the Company, repositioning the Company's commercial strategy and tactics resulting in significant product revenue growth, expanding managed care coverage for Vascepa, entering into multiple strategic transactions, pursuing and achieving multiple remedies through favorable court decisions and achieved the 2017 operating highlights described above.

In 2015, Mr. Thero's cash compensation lagged considerably behind the targeted 50th percentile of the Company's peer group set by the Remuneration Committee. Specifically, during 2015, Mr. Thero's base compensation of \$520,000 per year was at approximately the 25th percentile of other CEOs in our peer group. Since 2015, Mr. Thero's base compensation has been progressively adjusted upwards towards the 50th percentile. Effective February 2017, Mr. Thero's base compensation was adjusted to \$611,800 per year, which was at approximately the 50th percentile of other CEOs in our peer group.

Mr. Thero's bonus potential is tied to achievement of pre-defined corporate goals for the applicable year, with no consideration given to individual performance goals. For 2017, Mr. Thero's target bonus potential, which was 75% of his base compensation and at the 50th percentile for other CEOs in our peer group, was tied to achievement of meaningful and challenging corporate goals established at the start of the year.

[Table of Contents](#)

The Remuneration Committee believes that Mr. Thero's cash compensation is strongly aligned with corporate performance and the interests of our shareholders. Our Remuneration Committee has an established practice of paying no or partial incentive cash bonuses when the pre-defined corporate goals are not achieved or achieved only in part. For example, for 2013, Mr. Thero was awarded no cash bonus following the failure of the FDA to approve the ANCHOR indication, a key corporate goal for that year, and in 2015 and 2014, Mr. Thero was awarded 98% and 75% of his bonus target, respectively, based on only partial achievement of the pre-defined corporate goals for those years. Conversely, when pre-defined corporate goals are achieved in whole, or when pre-defined "stretch" goals are achieved, incentive cash bonuses are paid commensurate with the level of achievement in that year. For example, in 2017 and 2016, both years in which corporate achievement was especially strong, including the achievement of pre-defined corporate goals and pre-defined stretch goals, Mr. Thero was awarded 117% and 122% of his bonus target, respectively.

Moreover, a substantial portion of Mr. Thero's compensation is in the form of equity incentive awards, which the Remuneration Committee believes further aligns Mr. Thero's interests with those of our shareholders. The equity incentive awards are made in the form of stock options and restricted stock units, all subject to vesting requirements, that target the 50th of the Company's peer group. These equity incentive awards are subject to both time-based and performance-based vesting criteria.

Time-based stock options generally vest over a four-year period. Performance-based stock options generally vest only if certain pre-defined performance criteria are achieved (*e.g.*, commercial, clinical or regulatory milestones), plus an additional time-based vesting schedule if and only if those performance milestones are achieved. The stock options realize value only if our stock price increases after the date of grant. Time-based restricted stock units generally vest over a three- or four-year period. Performance-based restricted stock units generally vest only if certain pre-defined performance criteria are achieved (*e.g.*, commercial, clinical or regulatory milestones). Certain of the performance-based restricted stock units also include an additional time-based vesting schedule if and only if those performance milestones are achieved. The restricted stock units realize more value the better our stock price performs.

As noted in the graph below, approximately 66% of Mr. Thero's 2017 total compensation as reported in the Summary Compensation Table below relates to stock options and restricted stock units and 16% of his total target compensation is performance-based, in either the form of equity awards or incentive bonus:

In light of the Company's performance since Mr. Thero became CEO in January 2014, the Company's stock price performance during his tenure as CEO, including each of the past one, two and three year periods and his compensation during that same time periods, the Remuneration Committee believes that the amount and nature of Mr. Thero's compensation in 2017 and 2018 are strongly aligned with corporate performance and the interests of our shareholders.

Roles in Determining Compensation

Remuneration Committee

The Remuneration Committee, together with the Board, determines the framework for the compensation of the Company's executive officers. The Remuneration Committee also determines the corporate and individual performance goals under the Company's management incentive plan and achievement of these goals, and determines the policy for and scope of service agreements for the executive officers and contractual severance payments. While the Remuneration Committee draws on a number of resources, including input from the Chief Executive Officer and independent compensation consultants, to make decisions regarding the Company's executive compensation program, ultimate decision-making authority rests with the Remuneration Committee, subject in key cases to ratification by the independent members of the Board. The Remuneration Committee relies upon the judgment of its members in making compensation decisions, after reviewing the performance of the Company and evaluating an executive's performance during the year against established goals, operational performance, and business responsibilities. In addition, the Remuneration Committee incorporates judgment in the assessment process to respond to and adjust for the evolving business environment.

Risks Related to Compensation Policies and Practices

As part of the Board's risk oversight role, our Remuneration Committee reviews and evaluates the risks associated with our compensation programs. Our Remuneration Committee has reviewed our compensation policies as generally applicable to our employees and believes that our policies do not encourage excessive and unnecessary risk-taking, and that the level of risk that they do encourage is not reasonably likely to have a material adverse effect on Amarin. In making this determination, our Remuneration Committee considered the following:

- the Company's use of different types of compensation vehicles to provide a balance of long- and short-term incentives with fixed and variable components;
- the granting of equity-based awards with time-based vesting and performance-based vesting, both of which encourage participants to work towards long-term appreciation in equity values;
- the Company's annual bonus determinations for each employee and vesting of performance-based equity awards being tied to achievement of Company goals, which goals promote long-term value; and
- the Company's system of internal control over financial reporting and code of conduct and ethics, which among other things, reduce the likelihood of manipulation of the Company's financial performance to enhance payments under any of its incentive plans.

Compensation Consultant

The Remuneration Committee retains the services of Radford, an Aon company, as independent external compensation consultants. The mandate of the consultants includes assisting the Remuneration Committee in its review of executive and director compensation practices, including the competitiveness of pay levels, executive compensation design, and benchmarking with the Company's peers in the industry. The Remuneration Committee regularly evaluates the performance of its compensation consultants, considers alternative compensation consultants, and has the final authority to engage and terminate such services.

The Remuneration Committee has assessed the independence of Radford pursuant to SEC rules and concluded that no conflict of interest exists that would prevent Radford from serving as an independent consultant to the Remuneration Committee.

Chief Executive Officer

Our Chief Executive Officer attends Remuneration Committee meetings and works with the Remuneration Committee Chairman and its compensation consultants to develop compensation recommendations for executive

officers (excluding the Chief Executive Officer) and other key executives, based upon individual experience and breadth of knowledge, internal considerations, individual performance during the fiscal year, and other factors deemed relevant by the Remuneration Committee. The recommendations are then submitted to the Remuneration Committee for review and consideration. The Remuneration Committee works directly with its compensation consultants to determine compensation actions for the Chief Executive Officer. In accordance with NASDAQ listing rules, our Chief Executive Officer is not present during voting or deliberations concerning his own compensation.

Say-on-Pay

Annually, at our general meeting of shareholders, we hold a non-binding advisory vote regarding the compensation of our named executive officers, which we refer to as say-on-pay. The Remuneration Committee has considered and will continue to consider the outcome of such say-on-pay votes, including the percentage of votes cast in favor and against the say-on-pay proposal, when making future compensation decisions for our named executive officers. The Remuneration Committee believes that the most relevant period of time to assess the performance of the Company's Chief Executive Officer is the period over which he has held this position, which commenced in January 2014, during which period of time the Company's stock price significantly outperformed both its peer group and the NASDAQ Biotechnology Index as a whole. The Remuneration Committee also relies on advice from its compensation consultant, its evaluation of Company performance against pre-defined corporate goals, its understanding of the challenges facing the Company and its observations of executive officer performance to determine executive officer compensation.

At our last annual general meeting of shareholders in May 2017, the non-binding advisory vote of shareholders supported the compensation of our named executive officers as reported in our 2017 proxy statement by 83.4% of the votes cast at the meeting. These votes for and against the say-on-pay proposal, together with available feedback from investors, have been and will continue to be considered by the Remuneration Committee in connection with the evaluation of executive compensation.

Shareholder Outreach Program

We make a point of annually engaging with our shareholders to solicit feedback on our executive compensation program. During 2017, we met with many of our institutional shareholders to obtain their feedback and views on matters relating to our company, including our executive compensation program. Based on this feedback, we expect we will rely more heavily on performance-based equity compensation in future periods. For example, in 2017 and early 2018, executive officers of the company were granted performance-based restricted stock units which are earned only if the Company's REDUCE-IT cardiovascular outcomes study is deemed to be successful and product revenues reach pre-defined annual milestone levels ranging from \$300 million to \$500 million and then vest only if the recipient remains with the company for an extended period of time and upon, subject to acceleration in the event of a change in control transaction. With these changes, we believe that our shareholders generally approve of and continue to support our core compensation principles and our executive compensation program.

Competitive Market Benchmarking

The Remuneration Committee draws on a number of resources to assist in the evaluation of the various components of the Company's executive compensation program. While we do not establish compensation levels based solely on benchmarking, pay practices at other companies are a factor that the Remuneration Committee considers in assessing the reasonableness of compensation and ensuring that our compensation practices are competitive in the marketplace.

Our peer companies used in determining compensation actions with respect to 2017 fiscal year compensation were selected by the Remuneration Committee with the support of Radford, which beginning in 2011 has been retained to conduct comprehensive reviews of the Company's executive compensation practices.

Table of Contents

Our peer companies for 2017 compensation evaluation were selected prior to the start of 2017 in consultation with Radford on the basis of their similarity to us in terms of competition for talent, their status as a commercial or near-commercial stage company, revenue level and other financial attributes, phase of products in development, research and development expenditures, employee number, and market capitalization. Radford also qualitatively evaluated each company based on business focus and corporate strategy.

The Remuneration Committee considered the foregoing analysis in selecting the following 18 publicly-traded peer companies for use in evaluating compensation actions in the 2017 fiscal year:

AMAG Pharmaceuticals*	Elaxis*	Repligen*
Amicus Therapeutics	Halozyme Therapeutics	SciClone Pharmaceuticals
Arena Pharmaceuticals*	ImmunoGen*	Spectrum Pharmaceuticals*
Ariad Pharmaceuticals	Lexicon Pharmaceuticals	Sucampo Pharmaceuticals
Corcept Therapeutics	Merrimack Pharmaceuticals	Supernus Pharmaceuticals
Depomed	Pacira Pharmaceuticals	Vanda Pharmaceuticals

* Included in prior-year peer group.

In addition to the peer group above, the Remuneration Committee also reviews competitive compensation data from the Radford Global Life Sciences Compensation Survey. For 2017 compensation decisions, the Radford survey group included 52 publicly traded biotechnology and pharmaceutical companies with between 20 and 600 employees, revenue between \$20 million and \$600 million and market value between \$200 million and \$2.0 billion. Fourteen companies in our named peer group participated in this market survey. For benchmarking purposes, Radford then developed a competitive market composite of which 50% is based on proxy data from the named peer group and 50% is based on a market survey composite. Radford then assessed Amarin's 2017 compensation against market pay elements such as base salary, target short-term incentives as a percentage of base salary, target total cash compensation, long-term incentives and target total direct compensation. Additionally, Amarin's incumbent officers were matched to benchmark positions according to each officer's primary responsibilities.

The Remuneration Committee reviews the Company's list of peer companies periodically to reflect changes in market capitalization, developments at the Company relative to its peer companies, and other factors.

For purposes of compensation for 2018, the Remuneration Committee, with the advice of Radford, examined our 2017 peer group in light of our continued growth throughout 2017, the stage of our commercialization efforts, changes in our market capitalization, and changes in the size and status of comparative companies. With reference to these and other key business metrics, the Remuneration Committee used the following 18 companies as our 2018 peer group in evaluating compensation actions for 2018:

Acorda Therapeutics	Eagle Pharmaceuticals	Repligen Corporation*
AMAG Pharmaceuticals*	Halozyme Therapeutics*	SciClone Pharmaceuticals*
Amicus Therapeutics*	ImmunoGen*	Spectrum Pharmaceuticals*
Arena Pharmaceuticals*	Lexicon Pharmaceuticals*	Sucampo Pharmaceuticals*
Corcept Therapeutics*	Pacira Pharmaceuticals*	Supernus Pharmaceuticals*
Depomed*	Momenta Pharmaceuticals	Vanda Pharmaceuticals*

* Included in prior-year peer group.

Implementation of Objectives

In fiscal 2017, our executive compensation program consisted of the following forms of compensation, each of which are described below in greater detail:

- Base Salary

[Table of Contents](#)

- Annual Incentive Bonus
- Special Incentive Bonus Program
- Equity Compensation (subject to time and/or performance vesting)
- Employee Benefit Programs

In general, our Remuneration Committee aims to set executives' total cash compensation (base salary plus target bonus) at levels near the 50th percentile for executives with similar roles in the Company's peer group. Long-term incentive awards include stock options and restricted stock units and the value of such awards is generally targeted at the 50th percentile of our peer group.

Base Salary

Overview

Our Remuneration Committee aims to set executives' base salaries, in the aggregate, at levels near the 50th percentile of salaries of executives with similar roles at the Company's peer group. The Remuneration Committee believes it is important to provide adequate fixed compensation to our executive officers working in a highly volatile and competitive industry. Our Remuneration Committee believes that the 50th percentile for base salaries is the minimum cash compensation level that will allow us to attract and retain highly skilled executives. The Remuneration Committee's choice of this target percentile reflects consideration of our shareholders' interests in paying what is necessary to attract and retain qualified executives and achieve our corporate goals, while conserving cash and equity as much as practicable. We believe that, given the industry in which we operate and our compensation philosophy and objectives, base salaries at the 50th percentile are generally sufficient to retain our current executives and to hire new executives when and as required. In determining appropriate base salary levels for a given executive officer, the Remuneration Committee also considers the following factors:

- individual performance of the executive, as well as overall performance of the Company, during the prior year;
- level of responsibility, including breadth, scope and complexity of the position;
- level of experience and expertise of the executive;
- internal review of the executive's compensation relative to other executives to ensure internal equity; and
- executive officer compensation levels at other similar companies to ensure competitiveness.

Salaries for executive officers are determined on an individual basis at the time of hire and are set to be competitive with peer companies in our industry. Adjustments to base salary are considered annually in light of each executive officer's individual performance, the Company's performance and compensation levels at peer companies in our industry, as well as changes in job responsibilities or promotion. The Chief Executive Officer assists the Remuneration Committee in its annual review of the base salaries of other executive officers based on the foregoing criteria.

Changes in Base Salaries for Fiscal 2017

In October 2016, the Remuneration Committee approved for 2017 an average salary increase of 3.5% for all employees other than those executive officers identified below, each of whom received individually targeted salary increases. These increases were determined to take into consideration the rate of inflation and to approximate the estimated rate of compensation increase in the Company's peer group.

[Table of Contents](#)

In the case of Mr. Thero, a salary of \$611,800, effective February 1, 2017, was approved. This base salary was targeted at the 50th percentile for CEOs within our peer group. In the case of Mr. Kennedy, a salary of \$448,800, effective February 1, 2017, was approved. This base salary was higher than the 50th percentile for officers of similar position within our peer group; this determination was made in light of the Remuneration Committee's recognition of Mr. Kennedy's extensive experience and significant contributions to the Company during his tenure with the Company, in particular in connection with our ongoing regulatory efforts, several litigation matters and continued advancement of the Company's intellectual property estate. In the case of Dr. Ketchum, a salary of \$448,800, effective February 1, 2017, was approved. This base salary was higher than the 50th percentile for officers of similar position within our peer group; this determination was made in light of the Remuneration Committee's recognition of Dr. Ketchum's extensive experience and significant contributions to the Company during his tenure with the Company, in particular in connection with our ongoing regulatory efforts and continued advancement of the Company's REDUCE-IT cardiovascular outcomes trial, the scope of which is larger than advanced by most peer sized companies. In the case of Mr. Salyer, his salary was set at \$455,000 when he joined the Company in September 2017. This base salary was targeted at approximately the 50th percentile for Chief Commercial Officers within our peer group. In the case of Mr. Kalb, a salary of \$412,000, effective February 1, 2017, was approved. This base salary was targeted at approximately the 50th percentile for CFOs within our peer group.

Cash Incentive Awards

The Company also provides executive officers with the opportunity to earn annual performance-based cash bonuses, which are specifically designed to reward executives for overall corporate performance as well as individual performance in a given year.

The Board has adopted a Management Incentive Compensation Plan ("**MICP**"), under which the Remuneration Committee each year determines and approves corporate and individual performance goals and achievement of these goals for purposes of determining annual performance-based cash bonuses. The MICP is intended to provide structure and predictability regarding the determination of performance-based cash bonuses. Specifically, the MICP is intended to:

- (i) increase management focus on realistic goals intended to create value for shareholders;
- (ii) encourage management to work as a team to achieve the Company's goals;
- (iii) encourage individuals to realize goals that are meaningful to the Company;
- (iv) provide incentives for management to strive for achievement above and beyond the Company goals; and
- (v) help attract and retain high quality senior management personnel.

The MICP provides that the bonus potential for our executive officers will be established on an annual basis by the Remuneration Committee. Under the MICP, the actual amount of the bonus paid is calculated on a formulaic basis based upon achievement of pre-determined performance goals. In order to be eligible to receive a bonus, the Company must have achieved at least a specified percentage of the corporate goals for that year. The corporate goals and the relative weighting of the corporate and individual performance goals, as well as the relative weighting for each individual of individual performance goals, are established by the Remuneration Committee on an annual basis, shortly after our Board approves our annual operating plan. The Remuneration Committee has determined it appropriate to have our Chief Executive Officer's goals match our corporate goals and for no portion of his annual incentive bonus to be determined based on individual performance goals. For all other executive officers, individual goals are determined on an annual basis by the Remuneration Committee based on their areas of functional responsibility.

Table of Contents

Under the MICP, the Remuneration Committee reserves the right to make subjective assessments of executive performance and to separately reward performance beyond established individual or corporate goals and targets, and to award a smaller or larger bonus than provided for in the MICP, or to award no bonus.

For fiscal 2017, the bonus potential for our management employees as a percentage of base salary ranged from 75% for our President and CEO, 45% for our Executive Vice President, 40% for our Senior Vice Presidents, 30% for our Vice Presidents, and 15% for our Directors/Managers. All of the bonus potential for our President and CEO was tied to the 2017 corporate goals.

Fiscal 2017 Annual Bonus Incentive

Upon completion of fiscal 2017, the Remuneration Committee assessed the Company and our executive officer's overall performance against the achievement of corporate and individual performance goals established in 2017.

Set forth below are the corporate goals that were approved by the Remuneration Committee in assessing overall performance for the 2017 fiscal year, as well as the relative weighting of these goals and the Remuneration Committee's determination of achievement for each goal.

2017 Corporate Goals

Commercial (40%): These goals established target performance for the Company regarding the commercialization of Vascepa for the FDA-approved MARINE indication. The specific goals were as follows:

- *Revenues*: Achieve net revenue target of \$170.0 million
- *Compliance*: Favorable outside audit report regarding compliance program and no lost claim due to untruthful or misleading statements to healthcare professionals
- *Post REDUCE-IT Readiness*: Complete sales territory and targets analysis plan; complete market research regarding MARINE indication

REDUCE-IT (40%): These goals established target performance for the Company regarding the REDUCE-IT cardiovascular outcomes trial. The specific goals were as follows:

- *Interim Analysis Plan*: Perform all required procedures anticipating adjudication of targeted number of primary events by target date*
- *Patient Study Drug Compliance*: Maintain target compliance rates of protocol-specified capsule consumption*
- *Patient Retention in Study*: Achieve target patient retention rates in study and achieve target reduction in number of patients with no visit or vita status confirmation*
- *KOL Education / Support*: Form an advisory board and national / regional key opinion leader ("**KOL**") groups, create engagement plans for each KOL, create relationship management tools, and conduct periodic review with emphasis on measurable progress*

Quality & Supply (10%): These goals established target performance for the Company regarding the commercial supply. The specific goals were as follows:

- *Quality*: Ensure uninterrupted supply of commercial material based on supply chain schedule
- *Supply*: Purchase inventory needed for operating plan (plus safety stock) at an average price consistent with operating plan*

[Table of Contents](#)

Financial and Public Relations / Investor Relations (10%): These goals established target performance for the Company regarding the operational finance performance and with respect to public and investor relations matters. The specific goals were as follows:

- *Cash Outflow from Operations:* Ensure gross cash outflow is not greater than operating plan*
- *Cash Flow Positive from Operations (excluding R&D, interest and royalty costs):* Achieve for full year 2017
- *Stock price:* Exceed peer group performance

Pre-Specified “Stretch” Goals: The specific goals were as follows:

- *Exceed net revenue target per 2017 Operating Plan (\$170 million):* Zero for < 5% above net revenue target; 10% for 5% or more above net revenue target increasing ratably to 100% maximum for achievement of 50% above net revenue target
- *REDUCE-IT stopped early for overwhelming success:* 50%

* *The above-described metrics tied to the 2017 Operating Plan include highly sensitive data including cash flows, expense targets and clinical trials. We do not disclose the specific target levels for these metrics because we believe that such disclosure would result in competitive harm to our company. We purposely set these target levels at aggressive levels. Revealing these metrics, including the reasoning for setting targets at specific levels, could potentially reveal insights about our commercialization plans and research and other objectives that our competitors could use against us in the marketplace for similar pharmaceutical products. We believe each of these target levels were designed to be challenging but attainable under assumed conditions if we had what we considered to be a successful year.*

In reviewing the Company’s performance against the pre-specified corporate goals set by the Remuneration Committee as described above, the Remuneration Committee determined the goals were achieved as follows: (i) that each of the commercial goals was achieved at the 100% level, resulting in a weighted score of 40% for this component of the corporate goals; (ii) that each of the REDUCE-IT goals was achieved at the 100% level, resulting in a combined weighted score of 40% for this component of the corporate goals; (iii) that each of the quality and supply goals was achieved at the 100% level, resulting in a combined weighted score of 10% for this component of the corporate goals; and (iv) that each of the financial and public relations/investor relations goals was achieved at the 100% level, resulting in a combined weighted score of 10% for this component of the corporate goals. In total, the Remuneration Committee determined that these pre-defined corporate goals were achieved at the 100% level. In addition, the Remuneration Committee determined that the pre-defined net revenue stretch goal was achieved at the 12% level (actual revenue of \$179.8 million was 105.8% above plan) and that the REDUCE-IT early termination stretch goal was not achieved, resulting in a total score of 12% for the stretch goals and 112% cumulative achievement of the pre-defined corporate and stretch goals.

In addition, the Remuneration Committee exercised its discretion, as contemplated by the MICP, to award an additional 5% to each named executive officer in recognition of exceptional performance during 2017, in particular significant reductions in cash burn, restructuring of outstanding debt, favorable amendments to our co-marketing agreement with Kowa, consummation of a distribution agreement for the Canadian market, favorable ruling in the securities class action litigation, favorable regulatory activity regarding dietary supplements, and hiring an experienced Chief Commercial Officer.

Mark W. Salyer, Senior Vice President and Chief Commercial Officer

Mr. Salyer joined the Company in September 2017. Pursuant to the terms of his employment agreement, Mr. Salyer was paid a \$60,000 sign-on bonus in October 2017 and a cash incentive bonus of \$68,250 for 2017 performance. In future periods, incentive bonus payments will be subject to the satisfaction of pre-defined corporate and individual goals under the MICP, consistent with the other executive officers.

Special Incentive Bonus Programs

From time to time, the Remuneration Committee establishes special bonus programs to incentivize individual performance toward goals that are judged by the Remuneration Committee as important for corporate progress, very difficult to achieve, and of significant shareholder value if achieved.

In January 2016, the Remuneration Committee approved and implemented a special long-term incentive bonus program for Mr. Kennedy. This program was amended in May 2017. Under this program, as amended, Mr. Kennedy is eligible to receive a one-time, cash bonus payment in the amount of (i) \$100,000 upon the achievement of a pre-specified goal tied to progress on an initiative related to activities affecting the competitive positioning of Vascepa and (ii) \$200,000 upon the completion of such initiative, in each case, on or before December 31, 2019. Mr. Kennedy must be continuously employed by the Company through the payment date in order to be eligible to receive the special bonus payment, provided that if he is terminated by the Company without cause prior to the achievement of any such milestone or any such payment date he shall also remain eligible to receive such payment. In December 2017, the Remuneration Committee awarded Mr. Kennedy a \$100,000 bonus under this program in recognition of certain regulatory actions initiated by the FDA relative to medical foods, dietary supplements and synthetic omega 3s.

Equity Compensation

Overview

Stock Options and Restricted Stock Units. As an additional component of our compensation program, executive officers are eligible to receive equity compensation, which have historically been in the form of stock

options and restricted stock units. The Remuneration Committee grants stock options and restricted stock units to executive officers to aid in their retention, to motivate them to assist with the achievement of both near-term and long-term corporate objectives and to align their interests with those of our shareholders by creating a return tied to the performance of our stock price. In determining the form, date of issuance and value of a grant, the Remuneration Committee considers the contributions and responsibilities of each executive officer, appropriate incentives for the achievement of our long-term growth, the size and value of grants made to other executives at peer companies holding comparable positions, individual achievement of designated performance goals, and the Company's overall performance relative to corporate objectives.

We believe that equity awards, through stock options and restricted stock units, align the objectives of management with those of our shareholders with respect to long-term performance and success. We believe that equity awards serve as useful performance-recognition mechanisms with respect to key employees, as most awards are subject to time-based vesting provisions. Stock options are typically awarded to executive officers upon their hiring. We believe that such equity awards encourage executive officers to remain with the Company and also focus on our long-term performance as well as the achievement of specific performance goals.

Equity Award Grant Policy. We have an equity award grant policy that formalizes our process for granting equity-based awards to officers and employees. Under our equity award grant policy, all grants to executive officers must be approved by our Board or Remuneration Committee and all grants to other employees must be granted within guidelines approved by our Board or Remuneration Committee. All stock options will have an exercise price equal to the fair market value of our Ordinary Shares, calculated based on our closing market price on the applicable grant date. Under our equity award grant policy, equity awards will generally be granted as follows:

- grants made in conjunction with the hiring of a new employee or the promotion of an existing employee will generally be made at meetings of the Remuneration Committee, and effective on the first trading day of the month following the later of (1) the hire date or the promotion date or (2) the date on which such grant is approved; and
- grants made to existing employees other than in connection with a promotion will be made, if at all, on an annual basis and generally shall be made effective on the first trading day of the month following the date on which such grant is approved.

Equity Grants Awarded in Fiscal 2017

In considering annual equity awards for our executive officers in 2017, our Remuneration Committee aimed to grant equity at a level generally targeted at the 50th percentile of the Company's peer group. Equity awards in 2017 were comprised of a mix of time-based stock options (vesting over a four-year period), time-based restricted stock unit awards (vesting over a three-year period) and performance-based restricted stock unit awards (vesting tied to the achievement of pre-defined performance milestones (specifically the achievement of both (i) a successful outcome of the REDUCE-IT study and (ii) pre-defined commercial sales milestones), and subsequent to such achievement, time-based vesting and acceleration in the event of a change-in-control). Equity awards in 2017 were granted with a view towards both retaining and incentivizing our executives in future periods.

The grant date fair values of the equity awards granted to executive officers for the 2017 fiscal year are reflected in the Summary Compensation Table below and the number of shares subject to equity awards granted in 2017 are reflected in the Grants of Plan-Based Awards table below.

With respect to the Black-Scholes option-pricing model required under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 718 and reflected further below, historical variable assumptions and other variables can cause model prices to be more or less than the actual value of an option when exercised or in an ultimate exit. Actual option value is instead based on stock performance which

[Table of Contents](#)

can vary significantly from these historical variable assumption based valuation estimates. Because the actual value is based on stock performance, the Remuneration Committee believes that the equity awards granted create added and important alignment of management with our other shareholders regarding our long-term growth.

Employee Benefit Programs

Executive officers are eligible to participate in all of our employee benefit plans, including medical, dental, group life, disability and accidental death and dismemberment insurance, in each case on the same basis as other employees, subject to applicable law. We also provide vacation and other paid holidays to all employees, including executive officers, all of which we believe to be comparable to those provided at peer companies. These benefit programs are designed to enable us to attract and retain our workforce in a competitive marketplace. Health, welfare and vacation benefits ensure that we have a productive and focused workforce through reliable and competitive health and other benefits. Our executive officers participate in the same employee benefit plans as other employees in the Company.

Our retirement savings plan (“**401(k) Plan**”) is a tax-qualified retirement savings plan, pursuant to which all employees, including the named executive officers, are able to contribute certain amounts of their annual compensation, subject to limits prescribed by the Internal Revenue Service, which are eligible for a discretionary percentage match, in cash, as defined in the 401(k) Plan and determined by the Board of Directors. We recognized \$0.4 million of related compensation expense for the year ended December 31, 2017.

Tax and Accounting Considerations

Deductibility of Executive Compensation. In making compensation decisions affecting our executive officers, the Remuneration Committee considers our ability to deduct under applicable federal corporate income tax law compensation payments made to executives. Specifically, the Remuneration Committee considers the requirements and impact of Section 162(m) of the Code. With respect to taxable years before January 1, 2018, remuneration in excess of \$1 million was exempt from this deduction limit if it qualified as “performance-based compensation” within the meaning of Section 162(m) and was payable pursuant to a binding written agreement in effect on November 2, 2017. Recently-enacted tax legislation, effective for taxable years beginning after December 31, 2017, (1) expands the scope of Section 162(m) such that all named executive officers are “covered employees” and anyone who was a named executive officer in any year after 2016 will remain a covered employee for as long as he or she (or his or her beneficiaries) receive compensation from the Company and (2) eliminates the exception to the deduction limit for commission-based compensation and performance-based compensation except with respect to certain grandfathered arrangements in effect as of November 2, 2017 that are not subsequently materially modified. Accordingly, compensation paid to our named executive officers in excess of \$1 million will not be deductible unless it qualifies for the transition relief applicable to certain arrangements in place as of November 2, 2017, as described above.

The Remuneration Committee believes that stockholder interests are best served if the Committee retains maximum flexibility to design executive compensation programs that meet stated business objectives. The Remuneration Committee considers the Section 162(m) rules as a factor in determining compensation, but does not necessarily limit compensation to amounts deductible under Section 162(m).

Stock Ownership Guidelines

The Board believes it is important to align the interests of our executive officers with those of its shareholders. To this end, in March 2013, the Board established Stock Ownership Guidelines for its executive officers. The guidelines require that each executive officer maintain an equity interest in the Company with a value at least equal to a multiple of the executive officer's base salary, as follows:

Position	Target
Chief Executive Officer	3x annual base salary
Other Executive Officers	1x annual base salary

Equity interests that count toward the satisfaction of the ownership guidelines include the value of Ordinary Shares beneficially owned (other than unvested restricted stock) or issuable upon the settlement of vested restricted stock units. The calculation of an individual's equity interest, however, does not include the value of stock options (whether or not vested), unvested restricted stock, and unvested restricted stock units, except unvested deferred stock units. Executive officers have five years from the date of the policy adoption in March 2013 or later commencement of their appointment as an executive officer to attain these ownership levels. If an executive officer does not meet the applicable guideline by the end of the five-year period, the officer is required to hold a minimum of 50% to 100% of the shares resulting from any future equity awards until the applicable guideline is met, net of shares sold or withheld to exercise stock options and pay withholding taxes. The Remuneration Committee, however, may make exceptions for any officer on whom this requirement could impose a financial hardship.

As of the date of this Proxy Statement, all of the Company's named executive officers have satisfied these ownership guidelines, or have time to do so, other than Mr. Kennedy who owns or holds the right to acquire in excess of 3.4 million ordinary shares of the Company (in the form of Ordinary Shares, stock options and restricted stock units which options and restricted stock units are not included toward satisfaction of the ownership guidelines).

Additionally, we have instituted Stock Ownership Guidelines for our non-employee directors. For information regarding these guidelines, see the section entitled "*Director Compensation—Non-Employee Director Compensation.*"

Clawback

As of the date of this Proxy Statement, we do not have a formal compensation recovery policy, often referred to as a "clawback" policy, which would typically provide that the officers or directors subject to the policy must reimburse the Company for any bonus or other incentive-based or equity-based compensation improperly received. The Remuneration Committee intends to adopt a formal clawback policy once the final rules relating to such policies are issued pursuant to the Dodd-Frank Act. The Company has not had an accounting restatement.

- (1) There is no threshold for these awards and the target equates to the maximum.
- (2) This column reflects the aggregate grant date fair value, calculated in accordance with FASB ASC 718, based upon the probable outcome of the performance conditions. As achievement of the performance criteria was deemed not probable on the grant date, such grant date fair value was \$0. The value of the 2017 milestone-based restricted stock unit awards at the grant date, assuming that the highest level of performance conditions will be achieved is set forth in footnote 2 to the Summary Compensation Table.
- (3) This amount represents restricted stock unit awards that vest upon achievement of certain financial and clinical performance goals. To date, none of the specified criteria have been achieved.

The following table sets forth certain information regarding grants of non-equity incentive plan-based awards to the named executive officers during fiscal year 2017:

- (2) The amounts in the “Target” and “Maximum” columns reflect the range of and alternative potential payouts under the competitive positioning of Vascepa special incentive bonus program available during fiscal year 2017. In December 2017, the Remuneration Committee awarded Mr. Kennedy a \$100,000 bonus under this program in recognition of certain regulatory actions initiated by the FDA relative to medical foods, dietary supplements and synthetic omega-3s.

The following table sets forth the number of shares acquired by the named executive officers upon the exercise of stock options and vesting of restricted stock units in fiscal year 2017 as well as the value realized at that time. The value realized represents the aggregate difference between the fair market value of shares on the dates of exercise or vesting and the exercise prices, if any, multiplied by the number of shares acquired upon exercise or vesting, prior to payment of any applicable withholding taxes;

CEO Pay Ratio

Pursuant to a mandate of the Dodd-Frank Act, the SEC adopted a rule requiring annual disclosure of the ratio of the median employee's total annual compensation to the total annual compensation of the principal executive officer ("**PEO**"). The PEO of our Company is John F. Thero.

We believe that our compensation philosophy must be consistent and internally equitable to motivate our employees to create shareholder value. The purpose of the new required disclosure is to provide a measure of pay

[Table of Contents](#)

equity within the organization. We are committed to internal pay equity, and our Remuneration Committee monitors the relationship between the pay our PEO receives and the pay our non-executive employees receive.

As illustrated in the table below, our 2017 PEO to median employee pay ratio was approximately 25:1.

PEO 2017 Compensation	\$ 3,408,176
Median Employee 2017 Compensation	\$ 135,461
Ratio of PEO to Median Employee Compensation	25:1

We identified the median employee using annualized base salary for 2017, bonus(es) earned in 2017, and aggregate grant date fair values for equity awards granted in 2017 for all individuals who were employed by us on December 31, 2017, the last day of our fiscal year (whether employed on a full-time, part-time or seasonal basis). Employees on leave of absence were excluded from the list and reportable wages were annualized for those employees who were not employed for the full calendar year.

The pay ratio reported above is a reasonable estimate calculated in a manner consistent with SEC rules, based on our internal records and the methodology described above. The SEC rules for identifying the median compensated employee allow companies to adopt a variety of methodologies, to apply certain exclusions and to make reasonable estimates and assumptions that reflect their employee populations and compensation practices. Accordingly, the pay ratio reported by other companies may not be comparable to the pay ratio reported above, as other companies have different employee populations and compensation practices and may use different methodologies, exclusions, estimates and assumptions in calculating their own pay ratios.

DIRECTOR COMPENSATION

Non-Employee Director Compensation

Upon recommendation of the Remuneration Committee, the Board approved an amended non-employee director compensation program effective December 10, 2012, as amended on May 20, 2013, and March 11, 2014. The amended non-employee director compensation program was intended to approximate the 50th percentile of non-employee director compensation within the Company's peer group. A summary of the non-employee director compensation arrangements for fiscal year 2017 is set forth below.

	<u>Retainer (\$)</u>
Annual Board Retainer Fee:	
Non-Executive Chairman	95,000
All non-employee directors	55,000
Annual Chairman Retainer Fees:*	
Audit Committee Chairman	20,000
Remuneration Committee Chairman	15,000
Nominating and Corporate Governance Committee Chairman	10,000
Annual Committee Member Retainer Fees:*	
Audit Committee	10,000
Remuneration Committee	7,500
Nominating and Corporate Governance Committee	5,000

* These fees are in addition to the Annual Board Retainer Fee, as applicable.

The annual retainers are paid in equal installments in arrears within 30 days of the end of each calendar quarter, or upon the earlier resignation or removal of the non-employee director. For non-employee directors who join the Board during the calendar year, annual retainers are prorated based on the number of calendar days served by such director in the calendar year.

Non-employee directors are given an annual election option, which option is to be exercised within ten calendar days of the end of each quarter, of receiving their annual retainers in the form of either (i) cash or (ii) unregistered non-ADR ordinary shares, with any such issuances to be priced at the greater of (i) the closing price of the Company's ADSs on NASDAQ on the date which is ten calendar days after the end of each quarter or (ii) £0.50 per share (i.e., par value per ordinary share).

In addition, upon their initial appointment or re-election to the Board, non-employee directors receive equity awards with a grant date fair value of \$135,000, split equally in value between option awards and restricted stock units. The restricted stock units are subject to deferred settlement upon the director's separation of service with the Company ("*DSUs*") and vest in equal installments over three years on each anniversary of the date of grant. The grant date for such awards is date of initial appointment or re-election, as the case may be, and the exercise price of any option award is equal to the closing market price on NASDAQ of the ADSs representing the Company's Ordinary Shares on such date. In addition, for so long as the non-employee director remains on the Board, the non-employee director receives annual equity awards with a grant date fair value of \$90,000, split equally in value between option awards and DSUs. Such option awards vest in full upon the earlier of the one-year anniversary of the date of grant or the annual general meeting of shareholders in such anniversary year. Such DSUs vest in equal annual installments over three years, in each case upon the earlier of the anniversary of the date of grant or the annual general meeting of shareholders in such anniversary year.

In addition, a Non-Executive Chairman of the Board that continues on the Board following the Company's annual general meeting of shareholders (and who was not first elected to the Board at such meeting) will be

[Table of Contents](#)

eligible to receive an annual equity award with a grant date fair value of \$20,000, split equally in value between option awards and DSUs. Such awards will have a grant date and exercise price identical to other annual equity awards.

All equity awards will be made pursuant to the terms of the Company's Equity Incentive Plan, as amended and in effect from time to time. In the event of a change of control (as defined in the Equity Incentive Plan), all option awards and DSUs shall immediately become fully vested.

Non-employee directors are also reimbursed for their reasonable out-of-pocket expenses incurred in connection with attending Board and committee meetings.

On May 15, 2017, the Company awarded options representing the right to purchase 21,146 ordinary shares and 14,706 restricted stock units to each of Mr. O'Sullivan, Ms. Peterson, Mr. Stack, Mr. van Heek and Mr. Zakrzewski in connection with their service on the Board. The options vest in full upon the earlier of the one-year anniversary of the grant date or the Company's 2018 annual general meeting of shareholders, while the restricted stock units vest in equal annual installments over three years, in each case upon the earlier of the anniversary of the grant date or the annual general meeting of shareholders in such anniversary year, commencing in 2018. The total grant-date fair value of each of these awards is \$45,005 and \$45,000, respectively, based on a closing price of \$3.06 on NASDAQ of the ADSs representing the Company's Ordinary Shares on the date of grant.

In addition, on May 15, 2017, the Company awarded an option to purchase 25,845 ordinary shares and 17,974 restricted stock units to Dr. Ekman in connection with his service on the Board and as Non-Executive Chairman of the Board. The total grant-date fair value of these awards is \$55,006 and \$55,000, respectively, based on a closing price of \$3.06 on NASDAQ of the ADSs representing the Company's ordinary shares on the date of grant.

In March 2013, our Board established Stock Ownership Guidelines for its non-employee directors. The guidelines require that each non-employee director maintain an equity interest in the Company at least equal to three times the amount of such director's annual cash retainer. Equity interests that count toward the satisfaction of the ownership guidelines include the value of Ordinary Shares beneficially owned (other than unvested restricted stock) or issuable upon the settlement of vested restricted stock units. Non-employee directors have five years from the date of the commencement of their appointment as a director to attain these ownership levels. If a non-employee director does not meet the applicable guideline by the end of the five-year period, the director is required to hold a minimum of 50% to 100% of the shares received upon the exercise or vesting of any future equity awards until the applicable guideline is met, net of shares sold or withheld to exercise stock options and pay withholding taxes. The Remuneration Committee, however, may make exceptions for any director on whom this requirement could impose a financial hardship. As of the date of this Proxy Statement, all of the Company's non-employee directors have satisfied these ownership guidelines, or have time to do so.

The following table shows the amount of vested and unexercised stock options, unvested stock unit awards and vested stock unit awards subject to deferred delivery as of December 31, 2017;

	<u>Unexercised Vested Stock Options</u>	<u>Unvested Stock Awards</u>	<u>Vested but Deferred Stock Awards</u>

REPORT OF THE AUDIT COMMITTEE

The Audit Committee oversees the accounting and financial reporting processes of the Company and the audits of the Company's financial statements, evaluates auditor performance, manages relations with the Company's independent registered public accounting firm and evaluates policies and procedures relating to internal control systems. The Audit Committee operates under a written Audit Committee charter that has been adopted by the Board. All members of the Audit Committee currently meet the independence and qualification standards for Audit Committee membership set forth in the listing standards provided by NASDAQ and the SEC, and the Board has determined that Audit Committee Member Jan van Heek is an "audit committee financial expert," as the SEC has defined that term in Item 407 of Regulation S-K.

The Audit Committee members are not professional accountants or auditors. The members' functions are not intended to duplicate or to certify the activities of management and the independent registered public accounting firm. The Audit Committee serves a board-level oversight role in which it provides advice, counsel and direction to management and the auditors on the basis of the information it receives, discussions with management and the auditors, and the experience of the Audit Committee's members in business, financial and accounting matters.

The Audit Committee oversees the Company's financial reporting process on behalf of the Board. The Company's management has the primary responsibility for the financial statements and reporting process, including the Company's system of internal controls. In fulfilling its oversight responsibilities, the Audit Committee reviewed with management the audited financial statements included in the Annual Report on Form 10-K for the fiscal year ended December 31, 2017. This review included a discussion of the quality and the acceptability of the Company's financial reporting, including the nature and extent of disclosures in the financial statements and the accompanying notes. The Audit Committee also reviewed the progress and results of the testing of the design and effectiveness of its internal controls over financial reporting pursuant to Section 404 of the Sarbanes-Oxley Act of 2002.

The Audit Committee also reviewed with the Company's independent registered public accounting firm, which is responsible for expressing an opinion on the conformity of the audited financial statements with accounting principles generally accepted in the United States of America, their judgments as to the quality and the acceptability of the Company's financial reporting and such other matters as are required to be discussed with the Committee by Public Company Accounting Oversight Board ("**PCAOB**") AU380, *Communications with Audit Committees*, and SEC Regulation S-X Rule 207, *Communication with Audit Committees*. The Audit Committee has received the written disclosures and the letter from the independent registered public accounting firm required by the Public Company Accounting Oversight Board. The Audit Committee discussed with the independent registered public accounting firm their independence from management and the Company, including the matters required by the applicable rules of the Public Company Accounting Oversight Board.

In addition to the matters specified above, the Audit Committee discussed with the Company's independent registered public accounting firm the overall scope, plans and estimated costs of their audit. The Committee met with the independent registered public accounting firm periodically, with and without management present, to discuss the results of the independent registered public accounting firm's examinations, the overall quality of the Company's financial reporting and the independent registered public accounting firm's reviews of the quarterly financial statements, and drafts of the quarterly and annual reports.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the Company's audited financial statements should be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2017.

SHAREHOLDER PROPOSALS

Pursuant to Rule 14a-8 under the Exchange Act of 1934, as amended, shareholder proposals intended to be included in the 2019 Annual General Meeting proxy materials must be received by the Secretary of the Company no later than December 21, 2018, or otherwise as permitted by applicable law; *provided, however*, that if the 2019 Annual General Meeting date is advanced or delayed by more than 30 days from the anniversary date of the 2018 Annual General Meeting, then shareholders must submit proposals within a reasonable time before the Company begins to print and send its proxy materials. Proposals received after this timeframe will not be included in the Company's proxy materials for the 2019 Annual General Meeting. The form and substance of these proposals must satisfy the requirements established by the Company's Articles, the Nominating and Corporate Governance Committee charter and the SEC, and the timing for the submission of any such proposals may be subject to change as a result of changes in SEC rules and regulations.

Under the Companies Act, in order for a shareholder proposal to be presented at an Annual General Meeting, such proposal must have been requisitioned either by shareholders representing 5% of the voting rights of all members having a right to vote on such proposal at the Annual General Meeting or by at least 100 shareholders who have a right to vote on such proposal at the relevant Annual General Meeting and who hold shares in the Company on which there has been paid up an average sum, per member, of at least £100. Such proposal must have been signed or otherwise authenticated by all requisitionists and submitted to the Company not later than (1) six weeks before the Annual General Meeting to which the requests relate, or (2) if later, the time at which notice of that meeting is given by the Company.

Additionally, shareholders who intend to nominate a director to be elected at the 2019 Annual General Meeting must provide the Secretary of the Company with written notice of such nomination between 7 and 42 days prior to the date of such meeting, together with written notice signed by the director nominee regarding his or her willingness to be elected. Any shareholder seeking to recommend a director candidate or any director candidate who wishes to be considered by the Nominating and Corporate Governance Committee, the committee that recommends a slate of nominees to the Board for election at each annual general meeting, must also provide the Secretary of the Company with: the name and address of the shareholder seeking to recommend a director candidate; a representation that the shareholder is a record holder of the Company's securities (or, if the shareholder is not a record holder, evidence of ownership in accordance with Rule 14a-8(b)(2) of the Exchange Act); the name, age, business and residential address, educational background, current principal occupation or employment for the preceding five full fiscal years of the proposed director candidate; a description of the qualifications and background of the proposed director candidate, which addresses the minimum qualifications and other criteria for Board membership approved by the Board from time to time; a description of all arrangements or understandings between the shareholder and the proposed director candidate; the consent of the proposed director candidate to be named in the proxy statement relating to the Company's annual general meeting and to serve as a director if elected at such annual general meeting; and any other information regarding the proposed director candidate that is required to be included in a proxy statement filed pursuant to SEC rules, if then required. The Nominating and Corporate Governance Committee will consider all director candidates who comply with these requirements and will evaluate these candidates using the criteria described above under the caption, "Nomination of Directors." Director candidates who are then approved by the Board will be included in the Company's proxy statement for that annual general meeting.
